Skills and Projects

Teamwork and Communication Skills
- Worked with small teams in several web and game development projects.

- Proficient in frontend skills like JavaScript, React.js, Html/Css and the MERN stack (MongoDB, Express.js, React.js, Node.js).

- **Portfolio -** It is a personal website that showcases my skills, projects, and achievements as a web developer and designer I want to highlight. I have designed this to leave a lasting impression on potential clients, employers, and collaborators**.**

- **PG-Life -** I have built a feature-rich web application for PG hostel accommodations, employing JavaScript, React, and PHP to create an intuitive interface with real-time form validation. Through successful API integration, including Google Maps, greatly improving user convenience and navigation while enhancing overall hostel management processes.

- Successfully completed two basic coding projects simultaneously.
